

# A HISTORY OF PAPER

## EXCEPTIONAL PAPER MADE WITH 400 YEARS OF TRADITION AND KNOW-HOW

Since 1858, on the River Meurthe in the north of France, Clairefontaine has been producing a wide variety of superior quality paper, well-loved by schools, artists and industry. In 1998, the historic Schut mill, paper manufacturers in the Netherlands since 1618, was acquired as a subsidiary of Exacompta Clairefontaine. Together, we continue to produce the finest papers in the world; combining our centuries old know-how with modern technology and a firm commitment to the environment and sustainable forestry.
