

ÉCLATS

DYE - BASED WATERCOLOR INKS

Éclats by Jacques Herbin is a collection of dye-based watercolor inks for artists. These inks boast a richer, more viscous consistency than other dye-based and liquid watercolors, resulting in remarkably vibrant colors.

Éclats inks are easily mixable, re-wettable, and come in distinctive packaging that reflects their premium quality. Made in France, Éclats embodies the same commitment to premium quality that has defined Jacques Herbin for over 350 years.

EXCEPTIONAL INK PROPERTIES

Suitable for full range of techniques

- Mixable for easy color customization
- Blendable for smooth color gradients
- Retains luminosity when diluted
