## Clairefontaine Inkebana Notebooks

Artist Sophie Griotto's Clairefontaine collection is a true ode to the art of floral composition. Drawing inspiration from ikebana, she masterfully employs the white background and the dynamic choreography of her brush to create striking images that echo sun-baked cyanotypes. Known for her fashion illustrations and captivating depictions of Paris, Griotto finds painting flowers with ink to be a moment of escape and rejuvenation. This collection, aptly named "Inkebana"—a nod to both ink and the traditional Japanese art of floral composition—reflects a natural synergy between her artistic passion and the medium.
